Anywhere Anytime Access

Read, review, and annotate your board materials and notes as it suits your work-life style. Anywhere, anytime, and on any device: web app, iPhone, iPad, laptop, Kindle Fire, and Windows Surface.

Announcements & RSVP

If an important policy is changed or meeting is rescheduled, communicate with the whole board or individual committees with targeted announcements that are emailed and appear within OnBoard.

Web Conferencing Links

One tap access to your meeting. Leverage the native zoom integration or any web conferencing link platform of your choice - GoToMeeting, Skype, WebEx. Easily share meeting information in one central location, making it easy for all participants to be on time.

Unlimited Data Repository

Centralize all your information across all teams and committees in OnBoards unlimited secure repository. All your key documents are always one click away. Finding exactly what you need is easier than ever while granular user permissioning gives you control over information visibility across teams.

Complete File Support

Whether your board needs a complex spread sheet, a just to the facts PDF, a quick link or a snazzy PowerPoint you can connect any type of file to your board book and in your document repository.

Permission Management

Granular access controls allow you to set who has access to board materials and communications. Every item in your board book can be quarantined for those pesky conflicts of interest.

Task Management

Advanced Global Administrator

Super Admins have access to change permissions across an organization. If a former OnBoard administrator is no longer with your org, and as a result some meetings cannot be altered or deleted, Super Admin's can address those permission issues. Super admins cannot access any meeting materials.
